## FOR IMMEDIATE RELEASE

### **Community Foundation for Mason County Supports COVID-19 Relief and Community Projects**

LUDINGTON, Mich., April 29, 2020 -- To support emergent and unanticipated community needs resulting from the COVID-19 pandemic, the Community Foundation for Mason County partnered with United Way and the Pennies from Heaven Foundation to create a COVID-19 Relief Fund in late March. With support from Consumers Energy Foundation, DTE Energy Foundation, Meijer, and the community's continued donations, to-date the COVID-19 Relief Fund has awarded over \$58,000 to area nonprofits.

Grants are reviewed and distributed weekly and are helping to provide utilities, rent, transportation to radiation treatments, academic resources, delivery of meals to senior citizens, food, technology access and more for those impacted by COVID-19.

"There are countless examples of generosity, bravery and selflessness in our community and beyond as we are navigating this COVID-19 reality," said Andrea Large, Executive Director of the Community Foundation for Mason County. "Each of us has something to share – maybe it is going to work in hospitals or grocery stores, sewing masks, checking on neighbors, making music, decorating windows – and we are grateful to be a part of such a wonderful place and help support the great work being done."

Nonprofits that need support to provide help in our community due to the pandemic are encouraged to apply for a grant from the COVID-19 Relief Fund. The application is available on the United Way for Mason County's website at [www.masoncountyuw.org](http://www.masoncountyuw.org).

In addition, the Community Foundation for Mason County continues to award grants to community organizations in support of projects throughout Mason County. A total of \$60,450 was awarded from unrestricted and field of interest funds through the competitive application process, overseen by the grant committee of the Community Foundation advisory board.

Highlights of the grants awarded include:

- **Ludington & Scottville Chamber of Commerce** received a grant to be used as matching funds for the MEDC Small Business Grants to provide support to local businesses during the State of Michigan Stay-at-Home order.
- **Habitat for Humanity of Mason County** received a grant to provide funding for its Neighborhood Revitalization Program.

- **West Michigan Community Mental Health** was awarded a grant to implement myStrength web and mobile-based platform, which offers easy activities to share strategies for navigating relationships, parenting, managing stress, social isolation and much more.
- **Village of Custer** received a grant to support a community sculpture project, which will become a part of the Mason County Historical Sculpture Trail and the developing Mason/Lake Musical Sculpture Trail.
- **West Shore Family Support** was awarded a grant to create a Baby Buck's Boutique to provide parents with costly necessities in raising young children, based on an earn-while-you-learn point system.

“These grants, through the support of our donors, continue to have a positive impact on economic development, education, family support and recreation opportunities in the community we are lucky to call home. In light of COVID-19, we also offered flexibility in grant projects to allow for the greatest needs of our community to be met,” added Large.

A complete list of spring 2020 grant awards is available at [www.mason-foundation.org/grants/past-grant-awards/](http://www.mason-foundation.org/grants/past-grant-awards/).

Grant applications are accepted twice each year, once in the spring and again in the fall. Nonprofit organizations interested in seeking grant support from the Community Foundation are encouraged to visit [www.mason-foundation.org](http://www.mason-foundation.org) for additional information about the process.
